

Design Stacker I

The Design Stacker I is a good sized chair that is designed with comfort in mind. The seat cushion extends to the outside edge of the frame so that, when hooked together, they form a continuous bench-style seat. The chairs can be fitted with book racks, to order.

The dimensions are a generous 21" wide and 15" deep, with 3 1/4" of foam on the seat base. The legs are made from strong 1" steel tube and, like all our metal chairs, can be finished in a wide variety of colours. Can be easily stacked.
